

## **Introduction to the Institutional Self-Evaluation Report (SER)**

### **Overview of the College**

#### ***History of the College***

Monterey Peninsula College (MPC) commenced its operation in September of 1947 on the campus of Monterey High School, holding classes from 4:00 p.m. to 10:00 p.m. daily. During this first year, 97 acres of land were purchased on Fremont Street; this parcel of land became the current main campus. In September 1948, classes opened in converted barracks buildings with 280 students and 20 faculty members.

MPC separated from the Monterey Union High School District in 1961 and became a separate junior college district. With this reorganization, the Carmel Unified School District and the Pacific Grove Unified School District became part of MPC's Peninsula-wide junior college district.

After the campus opened in 1948, facilities continued to expand to meet the needs of the growing student population. The engineering building was constructed in 1958, the original library in 1960, and the art and music center and swimming pool in 1962. Enrollment continued to grow, as did the need for additional classrooms. In 1965, the original buildings of 1948 were replaced with new buildings for business, humanities, life science, physical education, physical science, and social science. The lecture forum, theater, and College Center were also part of this 1965 campus renewal.

In 1973, the College recognized an educational need in the communities residing in the north side of its service area, primarily in the communities of Marina and Seaside, near the former Ford Ord Army Base. From 1973 to 1993, the College operated a satellite campus at Fort Ord in cooperation with the U.S. Army, primarily for the benefit of Armed Forces personnel and their family members, as well as for residents in the adjacent communities of Seaside, Marina, and Sand City.

In 1982-1983, Monterey Peninsula College was selected as the site for the Maurine Church Coburn School of Nursing, established with a grant from the Maurine Church Coburn Charitable Trust. The School of Nursing is operated, in part, with funds from the Community Hospital Foundation. During August 1988, the engineering building was remodeled with funds from the Community Hospital Foundation to house the School of Nursing. In 1999, further remodeling of the building was completed, and the second floor of the International Center was remodeled to meet office and classroom space needs.

Monterey Peninsula College has enjoyed tremendous support from its residents. In November 2002, local voters approved Proposition 39 Measure I, a \$145 million bond for facilities infrastructure and equipment at Monterey Peninsula College. Funds from the bond continue to support the programmatic needs described in the College's Educational/Facilities Master Plan.

In addition, in 2003, construction of the new Library and Technology Center at the entrance to the campus was completed, and a new Plant Services building was erected near the Automotive Technology program site.

Monterey Peninsula College continues to grow and change. After the closing of the Fort Ord base in 1993, the Fort Ord Re-Use Authority (FORA) was formed to administer and oversee the distribution of the former Fort Ord property to various state, county, and local agencies, including Monterey Peninsula College. Several parcels were slated for conveyance to Monterey Peninsula College, including a parcel on 12<sup>th</sup> Street in Marina and another on Colonel Durham Street in Seaside. These properties have been conveyed to the college; however, the conveyance of other properties, including Parker Flats and the Military Operations on Urban Terrain (MOUT) has been delayed due to munitions cleanup requirements. These properties comprise the Fort Ord Education Center, whose mission is: (1) to meet the general education needs of the communities in the north end of MPC's service area, and (2) develop adequate facilities for the Public Safety Training Center, which includes a Fire and Police Academy. The Marina property is the location for basic skills and general education offerings, maintaining the original emphasis of the Center as an access point to higher education; the Marina site is known as the Education Center at Marina. The Seaside location is designated as the location for the District's public safety training programs. The California Postsecondary Education Commission (CPEC) confirmed the grandfathered status of the Education Center on the basis that it was established prior to 1974, the College has run it continuously since its inception, and it generates over 800 Full Time Equivalent Students (FTES) in a full academic year.

The campus has continued to evolve to meet student needs. Recent campus facilities improvements include the completion of permanent academic facilities at the Education Center at Marina and Student Services building on the main campus (fall 2011), improvements to the Physical Education building (fall 2012), and renovations to the MPC Theater (spring 2013), Humanities Building (fall 2013), swimming pool (spring 2014), and Student Center (fall 2014).

Since the previous self-evaluation report, the College achieved status as a Hispanic-Serving Institution (HSI), as noted in the HSI Assurance submitted as part of a Title V grant submission in 2014. According to the HSI Assurance in fall 2013, Hispanic students comprised 37.3% of the total Full-Time Equivalent Students (FTES) for the District.

### ***Service Area Information***

Monterey Peninsula College (MPC) is part of California's public community college system of 113 campuses in 72 districts across the state. As a comprehensive community college, MPC responds to the educational and cultural needs of the community, insofar as its resources permit.

Monterey Peninsula College is located on the Monterey Peninsula, which is on the central coast of California. The College serves residents on the Monterey Peninsula—which includes the communities of Carmel, Carmel Valley, Del Rey Oaks, Marina, Monterey, Pacific Grove, Pebble

Beach, Sand City, and Seaside,—as well as the portion of the central coast extending south just beyond the community of Big Sur.

The Monterey Peninsula College Community College District (MPCCCD) is 665 square miles. It represents 18% of the area of Monterey County. It is bordered on the north and east by the Hartnell Community College District and on the south by the county line, below which is San Luis Obispo county and the San Luis Obispo Community College District.

Population and Housing Estimates

The table below shows the number of housing units, occupied housing units, and persons per household for the incorporated cities and Census Designated Places (CDP) on the Monterey Peninsula. (The unincorporated areas of MPC’s district—portions of Carmel and Carmel Valley—are not included).

The most densely populated cities, as measured by the number of persons per household, are Marina and Seaside, both located in the northern portion of MPC’s district. By contrast, the city of Carmel-By-The-Sea has a low number of persons per household. Carmel-By-The-Sea and the Del Monte Forest CDP (known locally as Pebble Beach) have high vacancy rates, due to the high percentage of vacation and second homes in these tourist destination cities.

**Figure 1.1: Population and Housing Units, MPCCD**

	2010 Census					2014 ACS	
	Population	Housing Units	Occupied Housing Units	% Housing Units Vacant	Persons per Household	Population Estimate	Housing Units Est.
Carmel-By-The-Sea	3,722	3,417	2,095	38.7%	1.78	3,807	3,581
Carmel Valley Village CDP	4,407	2,156	1,895	12.1%	2.33	4,321	2,097
Del Monte Forest CDP	4,514	2,811	1,925	31.5%	2.17	6,439	2,860
Del Rey Oaks	1,624	741	701	5.4%	2.32	1,727	732
Marina	19,718	7,200	6,845	4.9%	2.75	20,198	7,352
Monterey	27,810	13,584	12,184	10.3%	2.08	28,053	14,177
Pacific Grove	15,041	8,169	7,020	14.1%	2.09	15,365	8,453
Sand City	334	145	128	11.7%	2.27	355	166
Seaside	33,025	10,872	10,093	7.2%	3.16	33,729	10,884

*Data sources: 2010 Census: U.S. Census Bureau, Profile of General Population and Housing Characteristics: 2010 Census Summary File 1; 2014 ACS: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates, Table DP05*

Race/Ethnicity

The table below shows the race and ethnicity profile for the incorporated cities and Census Designated Places (CDP) in MPC’s service area, based on 2010-2014 estimates from the American Community Survey. The table does not include the unincorporated areas of the District. The cities of Marina, Seaside, and Sand City, all located in the northern portion of the district, are more racially and ethnically diverse than the cities and CDPs in the southern portion of the District.

**Figure 1.2: Race/Ethnicity Profile, MPCCD**

	Not Hispanic or Latino							Hispanic or Latino (of any race)
	White	African American	American Indian/Alaska Native	Asian	Hawaiian/Pacific Islanders	Other Race	Two or more races	
Carmel-By-The-Sea	80.7%	0.0%	0.2%	8.2%	0.0%	0.0%	1.3%	9.5%
Carmel Valley Village CDP	86.7%	0.9%	0.0%	2.2%	0.0%	0.0%	4.9%	5.3%
Del Monte Forest CDP	76.1%	2.6%	0.4%	7.1%	0.1%	0.0%	3.3%	10.4%
Del Rey Oaks	72.3%	0.2%	0.0%	8.3%	0.2%	0.0%	4.4%	14.6%
Marina	37.6%	6.3%	0.3%	15.5%	4.9%	0.1%	6.2%	29.0%
Monterey	68.1%	2.6%	0.1%	8.1%	0.1%	0.2%	3.7%	17.0%
Pacific Grove	76.8%	1.8%	0.3%	5.5%	0.0%	0.0%	3.2%	12.4%
Sand City	56.1%	2.3%	0.3%	0.6%	0.0%	0.0%	2.8%	38.0%
Seaside	31.2%	8.1%	0.6%	10.0%	1.6%	0.5%	4.9%	43.0%

*Data source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates, Table DP05*

**Educational Attainment**

The table below shows the highest level of educational attainment for adults, age 25 and older, in the cities and Census Designated Places (CDP) in Monterey Peninsula College’s service area. The cities in the northern part of the district—Marina, Seaside, and Sand City—have considerably higher percentages of adults without a high school diploma than do the cities and CDPs in the southern part of the district. By contrast, Marina, Seaside, and Sand City have considerably lower percentages of adults who already have a bachelor’s degree or higher than the areas in the south.

**Figure 1.3: Educational Attainment Profile, MPCCD**

	Not a HS grad		HS grad or GED		Some college		Associate degree		Bachelor’s degree or higher	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage
Carmel-By-The-Sea	128	4.3%	428	14.4%	547	18.4%	156	5.3%	1,709	57.6%
Carmel Valley Village CDP	107	3.3%	0	0.0%	803	25%	368	11.5%	1,518	47.2%
Del Monte Forest CDP	46	1.2%	0	0.0%	896	23.7%	236	6.3%	2,355	62.3%
Del Rey Oaks	72	5.4%	0	0.0%	323	24.4%	165	12.4%	602	45.4%
Marina	2,293	17.5%	0	0.0%	3,260	24.8%	1,328	10.1%	3,198	24.4%
Monterey	1,174	5.7%	0	0.0%	4,278	20.9%	2,186	10.7%	9,600	46.9%
Pacific Grove	554	4.6%	0	0.0%	2,476	20.7%	960	8.0%	5,993	50.0%
Sand City	44	18.9%	0	0.0%	59	25.3%	18	7.7%	45	19.3%
Seaside	5,639	27.4%	0	0.0%	4,322	21.0%	1,693	8.2%	4,698	22.9%

*Data source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates, Table B15003*

**Labor Force Data**

The table below shows the monthly labor force data for both the cities and Census Designated Places in MPC’s service area. Labor force data is not available for the unincorporated areas in

MPC’s service area. These data show that cities of Marina and Seaside have relatively higher unemployment rates than the other areas in MPC’s service area.

**Figure 1.4: Employment Data, MPCCD**

	Labor Force	Employment	Unemployment	Unemployment Rate
Carmel-By-The-Sea	1,700	1,700	100	4.0%
Carmel Valley Village CDP	2,700	2,500	200	7.6%
Del Monte Forest CDP	1,800	1,700	100	6.1%
Del Rey Oaks	1,100	1000	100	6.7%
Marina	11,700	10,900	800	6.8%
Monterey	15,700	14,700	1,000	6.5%
Pacific Grove	9,000	8,400	500	5.7%
Sand City	Not available			
Seaside	18,400	16,600	1,700	9.3%
<b>Monterey County</b>	<b>219,800</b>	<b>199,900</b>	<b>19,900</b>	<b>9.1%</b>
<b>State of California</b>	<b>18,811,400</b>	<b>17,397,100</b>	<b>1,414,300</b>	<b>7.5%</b>

Data source: California Employment Development Department (EDD), 2014 Annual Unemployment Rates

## Enrollment Trends

### Unit Load

The graph below shows the unit load trends for the past five years. These data reflect all students enrolled at MPC, including those enrolled in contract courses.

**Figure 1.5: Unit Load Trends**

Source: California Community Colleges Chancellor's Office (CCCCO) Data Mart  
<http://datamart.cccco.edu/Students/Default.aspx>

Enrollment by Location/Modality

The table below shows the enrollments for the main campus in Monterey, the Marina Education Center (MEC), the Public Safety Training Center (PSTC) in Seaside, and distance learning courses offered through MPC Online. Whereas the Figure 5 above reflects *unduplicated headcount*, the table below reflects every enrollment. Thus, a student who is enrolled in three courses would count as three enrollments. Similarly, students who are taking courses at more than one location would be counted at all locations where they are taking courses.

**Figure 1.6: Enrollment Trends by Location/Modality**

	Fall 2011	Fall 2012	Fall 2013	Fall 2014	Fall 2015
Campus in Monterey	6,920	7,055	6,649	6,520	6,681
Marina Education Center	996	1,180	1,268	1,130	1,044
Public Safety Training Center in Seaside	147	175	241	226	249
Distance Learning	1,256	1,395	1,635	1,892	1,957

Source: MPC SIS740 Report

Full-Time Equivalent Students (FTES)

The graph below shows the Full-Time Equivalent Student (FTES) trends for the past five years. The FTES in this graph are a reflection of instructional activity only and do not account for differences in accounting methods.

**Figure 1.7: FTES Trends, 2010/2011 – 2014/2015**

Source: California Community Colleges Chancellor's Office (CCCCO) Data Mart  
<http://datamart.cccco.edu/Students/Default.aspx>

**Student Demographic Information**

Gender

The graph below shows gender trends for the past five years. Statewide, there have been more female students than male students for each year in this five-year period. The higher number of male students at MPC in some years is a result of high enrollments in public safety programs; most of the students (85%) in MPC's public safety programs are male.

**Figure 1.8: Gender Trends, 2010/2011 – 2014/2015**

Source: California Community Colleges Chancellor's Office (CCCCO) Data Mart  
<http://datamart.cccco.edu/Students/Default.aspx>

**Ethnicity**

White students comprise the largest ethnicity group at MPC. Hispanic/Latino students are the largest non-white group, and this group of students has grown slightly over the past five-year period. This ethnicity profile for the overall student population reflects the profile of Monterey Peninsula College's service area, described above in Figure 1.2.

**Figure 1.9: Ethnicity Trends, 2010/2011 – 2014/2015**

Source: California Community Colleges Chancellor's Office (CCCCO) Data Mart  
<http://datamart.cccco.edu/Students/Default.aspx>

Age

The graph below shows trends in student age at Monterey Peninsula College. MPC has a bimodal student population. The number of younger, “traditional age” college students (under age 25) is roughly similar to the number of “older” students (over age 25). However, students in the 20-24 age range have been growing steadily, while older populations have been shrinking overall.

Figure 1.9: Age Trends, 2010/2011 – 2014/2015

Source: California Community Colleges Chancellor’s Office (CCCCO) Data Mart  
<http://datamart.cccco.edu/Students/Default.aspx>

Academic Level

The graph below reflects the highest level of educational attainment of Monterey Peninsula College students. Students at the college freshman level are the largest group; by contrast, there are far fewer students at the sophomore level. In addition, there are a substantial number of students who already have a baccalaureate degree or higher.

Figure 1.10: Academic Level Trends, 2010/2011 – 2014/2015

Source: California Community Colleges Chancellor's Office (CCCCO) Data Mart  
<http://datamart.cccco.edu/Students/Default.aspx>

### Educational Goal

The graph below shows students' self-reported educational goals for five years. Students initially indicate their educational goal when they submit an application for admission. Students' educational goals may change later, but the graph below reflects initial educational goal. Students who indicated that they are seeking both transfer as well as a degree are included in the "Transfer" category only.

Figure 1.11: Students Initial Educational Goals, 2010/2011 – 2014/2015

Source: California Community Colleges Chancellor's Office (CCCCO) MIS Referential Data Files

Area of Residence: In-District Students

The graph below shows five-year trends for students' area of residence for those students who reside in the MPCCD. The number of students from each area within the district is proportionate with the total adult population in those areas.

Figure 1.12: Area of Residence Trends: Students Residing in the District

Source: California Community Colleges Chancellor's Office (CCCCO) MIS Referential Data Files

Area of Residence

The graph below compares in-district versus out-of-district residence for five years. MPC has a large number of students who reside outside of the District, due in part to public safety contract courses with agencies outside MPC's service area.

Figure 1.13: Area of Residence Trends: Students Residing Outside the District

Source: California Community Colleges Chancellor's Office (CCCCO) MIS Referential Data Files

## Presentation of Student Achievement Data and Institution-Set Standards

### Student Achievement: Student Success Scorecard

The Student Success Scorecard tracks a cohort of first-time degree, certificate, and/or transfer-seeking students for a period of six years. The 2012 Scorecard reflects a cohort of students who started as first-time students in 2005-2006; the 2013 Scorecard reflects a cohort of students who started as first-time students in 2006-2007, and so on.

#### *Prepared vs. Unprepared on Student Success Scorecard*

Students are classified as “Prepared” or “Unprepared” based on the level of their initial English and math courses. Prepared students are those whose initial course in English and/or math was college level. Unprepared students are those whose initial course in English and/or math was below college level.

The table below shows the percentages of Prepared and Unprepared students for five years. Over a 5-year period, the majority (76.6%) of students included in the Scorecard were classified as Unprepared for college.

**Figure 2.1: Prepared vs. Unprepared Students, 2012-2016 Scorecard**

	2012 Scorecard	2013 Scorecard	2014 Scorecard	2015 Scorecard	2016 Scorecard
Prepared	116	139	140	182	189
<i>Prepared %</i>	<i>21.2%</i>	<i>23.4%</i>	<i>22.2%</i>	<i>23.8%</i>	<i>25.6%</i>
Unprepared	430	455	492	584	550
<i>Unprepared %</i>	<i>78.8%</i>	<i>76.6%</i>	<i>77.8%</i>	<i>76.2%</i>	<i>74.4%</i>

Source: California Community Colleges Chancellor’s Office (CCCCO) Student Success Scorecard (<http://scorecard.cccco.edu/scorecard.aspx>)

#### *Prepared vs. Unprepared: Disaggregating the Data*

The table below shows the percentages of Prepared and Unprepared students, disaggregated by race/ethnicity. Due to small numbers of students in some race/ethnicity groups, data are combined for five years. Only race/ethnicity groups with 10 or more students in both the Prepared and Unprepared groups are shown.

**Figure 2.2: Area of Residence Trends: Students Residing Outside the District**

Race/Ethnicity	Prepared	Unprepared
African-American	8.0%	92.0%
Asian	34.4%	65.6%
Filipino	18.6%	81.4%
Hispanic/Latino	17.4%	82.6%
Pacific Islander	13.0%	87.0%
White	27.5%	72.5%

Source: California Community Colleges Chancellor’s Office (CCCCO) MIS Referential Data Files

### ***Completion Outcome on Student Success Scorecard***

The table below shows the percentage of students who achieved Completion (completed a degree, certificate, or transfer-related outcome), by Prepared vs. Unprepared status. Over a five-year period, approximately 70% to 73% of Prepared students achieved a Completion outcome, compared to 39% to 47% of Unprepared students.

**Figure 2.3: Completion Outcomes**

	<b>2012 Scorecard</b>	<b>2013 Scorecard</b>	<b>2014 Scorecard</b>	<b>2015 Scorecard</b>	<b>2016 Scorecard</b>
<i>Completion for Prepared students</i>	69.8%	73.4%	72.9%	70.3%	70.4%
<i>Completion for Unprepared students</i>	47.2%	45.3%	46.3%	40.2%	38.7%

Source: California Community Colleges Chancellor's Office (CCCCO) Student Success Scorecard (<http://scorecard.cccco.edu/scorecard.aspx>)

### ***Prepared vs. Unprepared: Disaggregating the Data***

The table below shows the percentages of Prepared and Unprepared students, disaggregated by race/ethnicity, who achieved a Completion outcome on the Scorecard. Due to small numbers of students in some race/ethnicity groups, data are combined for five years. Only race/ethnicity groups with 10 or more students in both the Prepared and Unprepared groups are shown.

Among Prepared students, Completion ranged from 58.3% for Pacific Islanders to 77.6% for Asian students; similarly, among Unprepared students, Completion ranged from 31.3% for Pacific Islanders to 59.3% for Asian students.

**Figure 2.4: Completion Outcomes: Disaggregated by Race/Ethnicity**

<b>Race/Ethnicity</b>	<b>Prepared</b>	<b>Unprepared</b>
African-American	68.8%	35.5%
Asian	77.6%	59.3%
Filipino	75.9%	40.2%
Hispanic/Latino	69.4%	40.0%
Pacific Islander	58.3%	31.3%
White	73.3%	45.8%

Source: California Community Colleges Chancellor's Office (CCCCO) Student Success Scorecard (<http://scorecard.cccco.edu/scorecard.aspx>)

## Institution-set Standards: Overview

### College-wide Student Achievement Data Overview: Institution-set Standards

Student Achievement Metric	Definition	Institution-set Standard <sup>1</sup>	2011 Data	2012 Data	2013 Data	2014 Data	2015 Data
Successful Course Completion Rate	Number of passing grades (A, B, C, P) divided by the number of students enrolled at 1 <sup>st</sup> Census	<b>70.1%</b>	72.94% (fall 2011)	73.02% (fall 2012)	73.01% (fall 2013)	69.54% (fall 2014)	70.32% (fall 2015)
Course Retention Rate	Number of students retained divided by the number of students enrolled at 1 <sup>st</sup> Census	<b>84.0%</b>	84.70% (fall 2011)	85.23% (fall 2012)	85.56% (fall 2013)	83.69% (fall 2014)	83.23% (fall 2015)
Degree Completion: Number of <i>Students</i> Awarded	Number of associate's degrees awarded during the previous academic year (July-June)	<b>332<sup>2</sup></b>	381 (2010-11)	312 (2011-12)	384 (2012-13)	430 (2013-14)	499 <sup>2</sup> (2014-15)
Degree Completion: Number of <i>Degrees</i> Awarded	Number of students awarded associate's degrees during the previous academic year (July-June)	<b>363<sup>2</sup></b>	411 (2010-11)	343 (2011-12)	433 (2012-13)	480 (2013-14)	566 <sup>2</sup> (2014-15)
Certificate Completion: Number of <i>Students</i> Awarded	Number of Chancellor's Office-approved certificates awarded during the previous academic year (July-June)	<b>59<sup>2</sup></b>	44 (2010-11)	100 (2011-12)	84 (2012-13)	83 (2013-14)	98 <sup>2</sup> (2014-15)
Certificate Completion: Number of <i>Certificates</i> Awarded	Number of students awarded Chancellor's Office-approved certificates during the previous academic year (July-June)	<b>61<sup>2</sup></b>	45 (2010-11)	105 (2011-12)	89 (2012-13)	86 (2013-14)	99 <sup>2</sup> (2014-15)
Transfer	Number of students who transferred to a 4-year institution in the previous academic year	<b>505</b>	544 (2010-11)	579 (2011-12)	476 (2012-13)	565 (2013-14)	575 (2014-15)

<sup>1</sup> The Institution-set Standard is the 5-Year Mean (2011-2015 data) minus the standard deviation.

<sup>2</sup> The 2015 Institution-set Standards for Degree and Certificate Completion were computed and submitted to ACCJC in March 2016. Subsequently, the College discovered a data coding issue that affected four of the Institution-set Standards. This table displays the *corrected* data and recalculated Institution-set Standards.

### Job Placement Rates for Students Completing Certificate Programs and Career Technical Education (CTE) Degrees

Program	Classification of Instructional Programs (CIP) Code	Institution-set Standard <sup>1</sup>	2009-2010	2010-2011	2011-2012	2012-2013	2013-2014
Administration of Justice	43.0107	<b>70.9%</b>	91.07%	95.83%	72.09%	67.74%	93.70%
Automotive Technology	47.0604	<b>68.9%</b>	87.50%	80.00%	66.67%	70.59%	84.21%
Business – Business Administration	52.0101	<b>53.0%</b>	78.57%	67.65%	65.71%	50.00%	57.14%
Child Development	19.0709	<b>45.9%</b>	73.33%	58.06%	62.96%	37.93%	62.07%

Note: This table includes only those programs that had 10 or more completers each year, for the most recent five years for which data are available.

<sup>1</sup> The Institution-set Standard is the 5-Year Mean (2011-2015 data) minus the standard deviation.

## Institution-set Standards: Disaggregated Data

### *Successful Course Completion—Disaggregated Data*

The successful course completion rate is calculated by dividing the number of passing grades (A, B, C, or P) by the number of students enrolled at census.

The institution-set standard for course completion for the most recent year is 70.1%; the College’s current performance level is 70.32%, which meets the standard. Population groups that fall below the standard in the most recent year are denoted in ***boldface italics***.

To ensure that the analysis of the disaggregated institution-set standards was meaningful and incorporated into existing efforts to improve student achievement, the college chose to disaggregate the institution-set standards for population groups similar to those identified in its Student Plan. In this way, the institution-set standards inform work already tied to mitigating gaps in performance. The college used the “Percentage Point Gap” methodology, the same methodology employed in the Student Equity Plan, to identify population groups that are disproportionately impacted. According to this methodology, disproportionate impact is present when a population group is performing at a -3 percentage point gap or greater. First, for each fall term, course completion rates that are at a -3 percentage point gap or greater are identified by **yellow highlight**. Then, population groups that experienced disproportionate impact for five fall terms are **highlighted in yellow**. For example, in Table I-A below, Black/African-American and Hispanic/Latino students experienced disproportionate impact for five fall terms.

**Table I-A. Successful Course Completion by Population Group**

	Fall 2011	Fall 2012	Fall 2013	Fall 2014	Fall 2015
<b>Successful Course Completion Rate</b>	<b>72.94%</b>	<b>73.02%</b>	<b>73.01%</b>	<b>69.54%</b>	<b>70.32%</b>

**Table I-B. Successful Course Completion by Course Type**

Course success rates have been higher for vocational courses than for basic skills and transferable courses. Per the percentage point gap methodology discussed earlier, disproportionate impact is present for basic skills courses in three of the five years.

	Fall 2011	Fall 2012	Fall 2013	Fall 2014	Fall 2015
<b>Successful Course Completion Rate</b>	<b>72.94%</b>	<b>73.02%</b>	<b>73.01%</b>	<b>69.54%</b>	<b>70.32%</b>

**Table I-D. Successful Course Completion by Discipline**

The College uses locally derived data, rather than the Chancellor's Office Data Mart, to examine successful course completion by discipline. The locally derived data enable the college to use its own department and discipline taxonomy, which make the data more useful and relevant for program review. The overall successful course completion rates, presented in the first row of the table below, differ slightly from the successful completion rates presented in the previous tables of this section.

### Course Retention – Disaggregated Data

The retention rate is calculated by dividing the number of students who remained in the course after the drop date by the number of students enrolled at census.

The institution-set standard for retention for the most recent year is 84.0%; the college’s current performance level is 83.23%, which falls slightly below the standard. Population groups that fall below the standard in the most recent year are denoted in **boldface italics**.

As noted earlier, the College chose to disaggregate the institution-set standards for population groups similar to those identified in its Student Plan. The College used the “Percentage Point Gap” methodology, explained earlier, to identify population groups that are disproportionately impacted. For each fall term, retention rates that are at a -3 percentage point gap or greater are identified by **yellow highlight**.

**Table II-A. Course Retention by Population Group**

### ***Degree Completion: Disaggregated Data***

Degree completion is measured both in terms of the number of associate degrees awarded in a full year as well as the unduplicated headcount of students who received associate degrees in a full year. This measure includes “associate degree for transfer,” a newly established variation of the associate degree that guarantees admission to a California State University (CSU) campus. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus.

### **Table III-A. Degrees Awarded**

The College has institution-set standards for both the number of *students* awarded degrees as well as the number of *degrees* awarded. The institution-set standard for students awarded degrees for the most recent year is 332; the College awarded 499 students, which meets the standard. The institution-set standard for degrees awarded for the most recent year is 363; the College awarded 566 degrees, which meets the standard.

### ***Certificate Completion: Disaggregated Data***

Certificate completion is measured both in terms of the number of certificates awarded in a full year as well as the unduplicated headcount of students who received certificates in a full year. This measure includes only Chancellor's Office approved Certificates of Achievement; it does not include locally issued Certificates of Training.

### **Table IV-A. Certificates Awarded**

The College has institution-set standards for both the number of *students* awarded certificates as well as the number of *certificates* awarded. The institution-set standard for students awarded certificates for the most recent year is 59; the college awarded 98 students, which meets the standard. The institution-set standard for certificates awarded for the most recent year is 61; the College awarded 99 certificates, which meets the standard.

## Organization of the Self-Evaluation Process

Monterey Peninsula College began planning for its self-evaluation in fall 2013, by selecting two Self-Evaluation Co-chairs and establishing an Accreditation Steering Committee comprised of the faculty, staff, administrators/managers, and student on the existing SLO Committee. The Committee was expanded to include additional managers from Student Services and Administrative Services. The Accreditation Steering Committee was initially co-chaired by the Vice President, Academic Affairs (at that time, the Accreditation Liaison Officer) and the Faculty Coordinator of Accreditation. When that Vice President, Academic Affairs left the College in summer 2014, the Superintendent/President named the Faculty Coordinator as the Accreditation Liaison Officer (ALO) to provide continuity for the self-evaluation process during the transition between administrative personnel. The Interim Vice President, Academic Affairs and an Academic Affairs dean served on the steering committee to ensure appropriate coverage of instructional topics.

The Accreditation Steering Committee established five writing teams were developed – one for the four individual Standards, and one for the introductory content. Writing teams included a mix of faculty, administrators, and classified staff, as appropriate; a member of the Governing Board also served as a co-writer for Standard IV. Within those parameters, the writing teams for each of the four main Standards consisted of a representative from the Steering Committee, a representative from the Administration, and a lead writer for each of the sub-sections within the main standard (e.g., a lead writer for IA, a lead writer for IB, etc.). Roles and responsibilities of the team members were defined as follows:

- **Steering Committee Representative (aka, “Standards Chairs”):** works with the lead writers of the sections within their standard, oversees the direction of the drafts, does first-line editing of sub-section drafts as they are completed, and communicates information from the Steering Committee that would affect the draft-writing process.
- **Administration Representative:** represents team concerns, interests, or resource requests within the administration.
- **Lead writer(s):** responsible for preparing the first draft of writing of his/her sub-section and for incorporating feedback from the Steering Committee into the second draft.

In addition, each writing team included a group of “area experts” to serve as information resources. Area experts helped to identify and prepare key pieces of evidence to support the narrative of the sub-section through interviews and occasionally through preparation of content (at the discretion of the lead writer and team Standard Chair). Since there is some overlap in the areas addressed by the Standards, some area experts provided information for more than one team.

Standards Chairs organized the work within each of their standards as appropriate in order to meet writing deadlines. Throughout the process, the main Steering Committee met at least bi-

weekly (often weekly) to check-in, address issues, review drafts, and discuss evidence. Steering Committee members also provided regular reports of progress to other constituency groups on campus, in order to keep the community informed of progress. The Chair for Standard I was the sitting Academic Senate president, which ensured Senate involvement and awareness.

The first and second internal drafts were completed during fall 2014, with the intention of preparing for a March 2016 site visit. When the College received notice that its visit would be delayed until October 2016, Standards Chairs were able to spend more time refining drafts and updating evidence. Broad findings emerging from the self-evaluation were presented to the campus at fall 2015 Flex Days. During the fall 2015 semester, the entire campus was invited to review the first public draft and provide feedback via committee meetings and through online surveys. Feedback from this draft was incorporated into the final draft in the spring 2016 semester. The final draft was presented to the Governing Board in summer 2016.
