

# Food Service Management Certificate

The **Food Service/Restaurant Management** program recognizes that food service is one of the world's largest industries. The industry includes all establishments that supply, prepare and serve food outside the home or food to deliver to the home. Whether on a large or small scale, employment is available in hospitals, schools, retirement homes, restaurants, caterers and hotels/resorts

Not all courses are offered every semester. Students are encouraged to consult with counselors and instructors about their educational goals and career aspirations so that appropriate classes may be recommended. Course descriptions are available at [www.mpc.edu](http://www.mpc.edu) and in the MPC Catalog.
