

MONTEREY PENINSULA
COLLEGE

Dual Admissions
CSUMB Partnership

Current Situation

- CSUMB Impaction
 - A campus is declared “impacted” when the number of applicants exceeds the number of available spaces
 - The campus has “exhausted instructional resources and physical capacity”
 - Impaction allows a campus to use additional admission criteria to screen applicants
 - CSUMB began to utilize first time freshmen impaction in Fall 2016

Freshmen Impaction

- Freshman applicants who graduated from a high school in Monterey, Santa Cruz or San Benito counties are considered part of CSUMB's "local admission area" and need to meet only the minimum CSU admission requirements.
- Applicants from schools outside the local area will be admitted based on the number of available spaces that remain, and held to a higher CSU freshmen eligibility index.
- Impaction does not apply to transfer students.

Proposed Solution

- Create a partnership between MPC/CSUMB
- CSUMB will be able to select a certain number of out-of area students to reconsider for admission into a new special “Dual Admission” program in which students would:
 - Be accepted into specific programs at CSUMB and MPC
 - Take 1-2 courses at CSUMB each semester, have the opportunity to apply for on-campus housing at CSUMB, and still have the “university experience”
 - Take remaining courses (general education and major requirements) at MPC (for the first two years)
 - Earn AA-T/AS-T from MPC and transfer into CSUMB as Juniors

Pathways for Dual Admissions

- Starting Fall 2017:
 - Business Administration
 - Marine Science (Biology)
 - Undeclared/General Education
- Possible Pathways to Begin Fall 2018:
 - Computer Science
 - Psychology
 - Kinesiology
