## Other Information

You may update this information at any time prior to submission. Once you have submitted, the information on this page cannot be edited.

### Social Security Number

Your designated programs may require your SSN for institutional or federal financial aid forms.

SSN Optional

If you have a U.S. Social Security number you are required to include it on admission application forms to all CSU campuses pursuant to Section 41201, Title 5, Code of California Regulations and Section 6109 of the Internal Revenue Code. CSU campuses may use the Social Security number to identify your student records maintained in your association with the campus and, if needed, to help collect debts owed the university.

If you have qualified for Deferred Action for Childhood Arrivals (DACA) from the United States Citizenship and Immigration Services and subsequently been issued a Social Security Number, please enter the number below. If you do not have a Social Security number at the time you file the application, you may leave the item blank and the campus will assign a temporary number. However, you should obtain a Social Security number, unless you are prohibited by law from doing so, and submit it to the university by the time you begin enrollment. Failure to furnish your correct Social Security number may result in the imposition of a penalty by the Internal Revenue Service.

Also, the Internal Revenue Service requires the university to file information returns that include the student's Social Security number and other information, such as the amount paid for qualified tuition, related expenses, and interest on educational loans. That information is used to help determine whether you, or a person claiming you as a dependent, may take a credit or deduction to reduce federal income taxes. Failure to comply with this requirement may result in a \$50 penalty, assessed by the IRS under Section 6723. In addition, this information is utilized to match your application to academic records, financial aid applications, and other documents.

[For more information](#)

These guidelines reflect an income level that will generate an Expected Family Contribution (EFC) of approximately \$1,500. For purposes of these guidelines, the approximate contribution for dependent applicants is based solely on the parental income and does not take into account any parental assets nor does it assume any contribution from the applicant's income or assets. For independent applicants, the guidelines are based strictly on income with no consideration of available savings or other assets.

\*Guidelines are based on the formulas used to determine the Expected Family Contribution (EFC) for federal student financial aid.
