Business Administration

## Program Overview

MPC's Associate in Science in Business Administration for Transfer degree program prepares students for further studies in all business disciplines upon transfer to a four year university in the CSU system. Successful students will be able to make information based decisions, complete core business processes, and communicate effectively in a business environment.

## Job Outlook

Business administration skills are essential in every field imaginable, from aerospace to zoos. Graduates can work in a variety of job roles, including in finance, management, marketing, sales, and human resources. Statewide, business administration jobs will grow 12% by 2026, while regionally, opportunities abound in retail, health care, education, tourism, and technology. Graduates can also strike out on their own as startup entrepreneurs or small business owners.

This is a suggested sequence of coursework and is one pathway for students to earn their degree/certificate. This is not an official educational plan. A counselor is able to assist you with creating a personalized education plan based on your academic, career, and personal goals. For more information about counseling and up-to-date program requirements, please visit [www.mpc.edu/counseling](http://www.mpc.edu/counseling).

*The general business foundation I received at MPC prepared me very well for when I started my upper division business courses at Cal Poly. Aside from the technical accounting skills I was taught at MPC, I was really introduced to other aspects of the business realm and how Accounting played a key role. This sparked a curiosity that still lives with me today.*
