ADMINISTRATIVE PROCEDURES

Chapter 5 Student Services

5205

AP 5205 Student Accident Insurance

The District provides limited student accident insurance for students attending Monterey Peninsula College. The insurance is for accidents occurring on campus while a student is participating in an educational activity, or for accidents occurring during a student's participation in a campus-approved, educationally-related, off-campus activity. The District shall also provide, as required by law, specific, limited insurance coverage for student athletes.

All injuries must be reported to Student Health Services (or the Athletic Training Department for collegiate sports-related injuries) immediately upon notice that an injury occurred. An accident claim form must be completed by both Student Health Services/Athletic Trainer and the injured student. Once complete, Student Health Services/Athletic Trainer is to submit the claim and HIPAA form to the accident insurance provider for processing.

See Board Policy 5205 - Student Accident Insurance
