

**MONTEREY PENINSULA COLLEGE  
GOVERNING BOARD POLICES**

Appendix 2205: Campus Traffic Regulations

In accordance with the provisions of Section 21113, subsection (a), of the California Vehicle Code, the following regulations shall apply to all persons who operate or park vehicles on the grounds of this College:

1. It shall be unlawful to fail to obey any sign, signal, or traffic control device erected by this College, or the lawful order of any member of the College Security Department.
2. No person shall park or leave standing any vehicle upon any roadway, path, driveway, walkway, or immediately adjacent to buildings.
3. No person shall park or leave standing any vehicle in such manner as to block the entrance to any path, drive, service road, or other access road.
4. Where signs or curb markings have been placed limiting the time during which a vehicle may be parked, no person shall park in excess of that posted time limit.
5. No person shall park or leave standing any vehicle in any area or space designed and marked for "Staff Parking Only" unless the vehicle is then displaying an emblem or sticker which has been issued to that vehicle by this College for the purpose of designating the operator of the vehicle as "Staff". Such emblem or sticker will be valid only during the school year for which it is issued.
6. All vehicles parked on campus must display a current daily, semester, or annual permit, except those vehicles parked in Visitor Only Zone (10 minute or 30 minute).
7. Guest Lectures and long-term visitors may obtain Visitor Parking Permits through the Division Chairpersons or Department Managers.
8. No person shall park or leave standing any vehicle except on a designated parking lot. When said parking lot is paved with some hard surface material and lines painted designating parking spaces, no person shall park or leave standing any vehicle except in said spaces. When the parking lot has not been paved, and lines have not been painted, no person shall park or leave standing any vehicle in such a manner as to prevent the entrance, exit, or free movement of any vehicle through the parking lot. Whenever small unpaved areas adjacent to trees and other vegetation are found in an otherwise paved parking lot, no vehicle shall be parked on the unpaved portion.
9. No person shall operate any vehicle on the grounds of this College at a speed in excess of 15 miles an hour.
